DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims have been considered but are most in view of the new ground(s) of rejection.

Election/Restrictions

2. Claims 5-7, 18-21, 25-28, are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 12-8-03.

Claim Rejections - 35 USC § 112

3. Claims 4, 8-9 and 11-13, 29-30, 32-33, 36-37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In claims 4, 11, 33 and 37, there is no support in the specification for the phrase "the first solvent is less than 30% by weight of the electrolyte". There is no support for less than 30% by weight. In claims 12, 32 and 36, there is no support in the specification for the phrase "the second solvent is more than 70% by weight of the electrolyte". There is no support for more than 70% by weight.

4. Claims 2-3, 10, 14-17, 22-24, 34-35, 38-40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 2, 10 and 14, it is unclear what is meant by the phrase "roughly between". This makes the claims vague and indefinite.

Claims 34 and 38 are rejected because it is unclear what "substantially 80% by weight" represents. This makes the claims vague and indefinite.

Claims 35 and 39 are rejected because it is unclear what "substantially 20% by weight" represents. This makes the claims vague and indefinite.

Claim Rejections - 35 USC § 102

5. Claims 4, 8-9, 11-13, 29-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Yamamoto et al. (JP 7-335254, abstract).

Yamamoto et al. teaches a nonaqueous secondary battery comprising an organic solvent containing ethylene carbonate, dimethyl carbonate and diethyl carbonate and LiPF6 as the salt. Yamamoto et al. teaches on page 5, Table 1 of the patent using EC:DMC:DEC for the electrolyte organic solvent in a volume ratio of 20:60:20 [26.42wt% of EC, the first solvent and 76 wt% of DMC+DEC, the second solvent]. Yamamoto et al. teaches therefore the first solvent less than 30 wt% and the second solvent between 60-80 wt%.

The preamble an electrolyte for a lithium-sulfur battery has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

Allowable Subject Matter

6. Claims 10, 22-24 and 31 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
